

## Licensed Practical Nurse - Crosstown Clinic (Temporary, Part-Time, 0.47 FTE)

[Apply Now](#)

Company: Providence Health Care

Location: Canada

Category: healthcare-practitioners-and-technical

### Job Description

#### Summary

**Crosstown Clinic is actively seeking Licensed Practical Nurses. Whether you bring previous experience in the field of substance use and addictions care or simply have a keen interest in it, we encourage you to explore the opportunity of joining the Crosstown team!**

#### About The Crosstown Clinic

Located at 77 E Hastings Street, The Crosstown Clinic is the first clinic in North America to offer medical-grade heroin (diacetylmorphine) and the legal analgesic hydromorphone within a supervised clinical setting to chronic substance use patients.

In collaboration with the interdisciplinary team, the **Licensed Practical Nurse**, reporting to the Patient Care Manager or Resident Care Manager, has the following responsibilities: Provide nursing care to an assigned group of patients/residents in accordance with established policies, procedures, and the Standards of Practice for the Licensed Practical Nurses of British Columbia.

Function as an independent practitioner, with the ability to identify situations like increased patient acuity or cases beyond the LPN scope, and appropriately seek collaborative support or clinical intervention from RN/RPN.

Assist patients/residents in meeting their physical, social, spiritual, and psychological needs,

aligning with the mission, vision, and values of Providence Health Care (PHC) and established protocols.

Participate in the development of care plans, conduct assessments, implement and evaluate interventions, document information, and act as an advocate for patients/residents.

Engage in various meetings, including care conferences, and contribute to the orientation of new staff and students as required.

Promptly respond to and report incidents following established procedures.

Perform clerical duties as needed.

**For inquires regarding this posting, please reach out to the Manager: Louise Setchell via email: [lsetchell3@providencehealth.bc.ca](mailto:lsetchell3@providencehealth.bc.ca)**

Qualifications / Skills and Education

### **Education**

Graduation from a recognized program for Practical Nurses or an equivalent combination of education, training and experience.

Registration with the British Columbia College of Nurses and Midwives as a practicing LPN registrant. Current basic cardiac life support certification.

### **Skills and Abilities**

Demonstrated knowledge and ability to perform Cardiopulmonary Resuscitation (CPR) procedures appropriate for the area of service.

Ability to communicate effectively both verbally and in writing.

Ability to deal with others effectively.

Physical ability to carry out the duties of the position.

Ability to operate related equipment.

Ability to work as a member in an interdisciplinary team.

Ability to apply decision making and analytical skills.

Ability to role model conflict resolution strategies.

Ability to prioritize and organize work.

Ability to teach and identify patient/resident learning needs.

## Duties and Responsibilities

Provides safe and respectful nursing care to an assigned group of patients/residents, according to established policies and procedures, in combination with evolving individualized care plans and setting care priorities.

Conducts head-to-toe assessments, monitors and recognizes abnormal signs or symptoms including laboratory values, and communicates with the RN/RPN, if warranted. Consults other members of the interdisciplinary care team as required. Supports and partners with the RN/RPN in the care of patients/residents with complex or unpredictable outcomes.

Communicates with physician regarding assigned patient/resident and carries out verbal and/or written orders as required. Transcribes orders onto appropriate patient/resident record and processes written orders as needed.

Documents care provided, such as assessments, status, progress, treatments, changes in condition, medications administered and discharge planning, in manual and/or computerized environment.

Prepares patient for, and/or receives patient from surgical and/or diagnostic procedures, transfers and admissions. Contacts physician, or other member(s) of the interdisciplinary team for relevant patient orders and information.

Administers medications, including narcotics and excluding intravenous route, according to established procedures, and monitors medication's effects. Maintains communication with RN/RPN or other members of the interdisciplinary team as required.

Uses evidence-based resources such as Nursing Care Standards and drug reference guides, in-services and workshops, to keep nursing knowledge and procedures up-to-date.

Responds to a variety of incidents such as Codes, injuries or falls, hazardous spills, aggressive behavior and fire alarms. Reports incidents and fills out appropriate forms in accordance with established procedures.

Assists with the orientation of new staff and student preceptors by performing duties such as demonstrating work procedures, proper use/location of equipment, sharing clinical knowledge, using effective communication and acting as a positive role model.

Identifies patient/resident and their significant other(s)'s actual and potential strengths and limitations including physiological, psychological, socio-cultural and spiritual needs.

Encourages involvement of patient/resident and their significant other(s) in decisions that affect them, by respecting personal choices and providing information and opportunities to talk about their concerns.

Identifies and responds to patient/resident and family learning needs, provides educational and reference materials, incorporates patient/resident and family teaching activities into care plan and nursing interventions, and/or makes referrals to other identified resources.

Attends, provides input and advocates on patient/resident's behalf at care planning meetings and family conferences.

Participates with the interdisciplinary team in the development, modification and evaluation of individualized care plans that support the abilities, preferences and routines of the patient/resident.

Uses knowledge of patient/resident status, external supports and other relevant factors to assist the team with discharge planning.

Participates in staff meetings, special projects and relevant hospital committees to provide

generalized information and feedback on patient/resident care and nursing practice.

Operates and/or cleans equipment related to patients/residents care and reports malfunctions to supervisor. Uses appropriate supplies for care in accordance with departmental procedures; handles, stores and disposes of workplace hazardous materials and sharps in accordance with established procedures.

Performs related clerical duties such as answering the telephone, faxing, taking and relaying messages and assisting in maintaining standardized records.

Performs other related duties as assigned.
