Company: Telus International

Location: Canada

Category: computer-and-mathematical

Why US

TELUS International AI-Data Solutions partners with a diverse and vibrant community to help our customers enhance their AI and machine learning models. The work of our AI Community contributes to improving technology and the digital experiences of many people around the world. Our AI Community works in our proprietary AI training platform handling all data types (text, images, audio, video and geo) across 500+ languages and dialects. We offer flexible work-from-home opportunities for people with passion for languages. The jobs are part-time, and there is no fixed schedule.

The Role

Role Description:

Improving the content and quality of digital maps, which are used by millions of users globally.

Detail-oriented, likes doing research and has a good knowledge of national and local geography.

Work in your own time whenever work is available.

Completing research and evaluation tasks in a web-based environment, eg verifying and comparing data, determining the relevance and accuracy of information.

You will be provided with guidelines for each task, which need to be followed. The project offers a variety of tasks, and work is paid per task.

Ideal Profile

Requirements:

Full Professional Proficiency in **French and English** to be able to effectively liaise with stakeholders in the region.

You must be living in **Canada** for the last 2 consecutive years

Ability to follow **guidelines** and do **research** online using search engines, online maps and website information

You must have familiarity with current and historical business, media, sport, news, social media and cultural affairs in **Canada**

Being open to work across a diverse set of Task Types (e.g. Maps, News, Audio tasks, Relevance)

Willingness to learn and adapt to changing guidelines and tasks

What's on Offer?

Join a market leader within FinTech

Opportunities for career growth & development

Great work culture
