The Job

Job description

We are hiring freelance **French and English** speaking Online Data Analyst's for a project aimed at improving the content and quality of digital maps, which are used by millions of users globally. The job would suit someone who is detail-oriented, likes doing research and has a good knowledge of national and local geography.

This is a **freelance** position on a **flexible schedule** you can work in your own time whenever work is available. You will be completing research and evaluation tasks in a web-based environment, eg verifying and comparing data, determining the relevance and accuracy of information. You will be provided with guidelines for each task, which need to be followed. The project offers a variety of tasks, and work is paid per task.

The Profile

Requirements

Full Professional Proficiency in **French and English** to effectively liaise with the

stakeholders of the region.

Ability to follow **guidelines** and do **research** online using search engines, online maps and website information

You must have familiarity with current and historical business, media, sport, news, social media and cultural affairs in **Canada**

Being open to work across a diverse set of Task Types (e.g. Maps, News, Audio tasks, Relevance)

Willingness to learn and adapt to changing guidelines and tasks

The Employer

Our client partners with a diverse and vibrant community to help our customers enhance their AI and machine learning models.
