Cost Consultancy

Leading cost consultancy focused on independent advisory services, software and data solutions to the global commercial real estate industry

Our client, a project management and cost consultancy firm has an opening for a Quantity Surveyor with loan monitoring experience in Vancouver. As a Quantity Surveyor you report to the company Principals and will interact with them frequently.

Basic duties and responsibilities:

Quantity Surveying:

Conceptual estimating, including 'comparables' research, high level area-based costing

Support for business case preparation

Management of cost database, including current intel from contractors/trades and suppliers, and management of our own 'as-built' project cost database

Keeping current with market trends and forecasting escalation

Detailed estimating, including detailed quantity take-offs and elemental estimating

Cross-selling and building new contacts and enhancing client relationships

Project management/coordination work from time-to-time

Loan Monitoring:

Conduct and complete site inspections including photographs

Prepare and submit invoices, claims for progress payments, Certificates for Payment, valuation

of changes and analysis of progress and recommendation

Report to the lender on the overall progress of the project and anticipated completion dates

Prepare and submit a preliminary report to the lender before any loan advances are issued to the borrower, confirming the borrower's equity

Develop cash flow projections

Track project budget, against cost-to-date and cost-to-complete.

Only candidates with authorisation to work in Canada will be considered.

Compensation:

5+ years of relevant Quantity Surveying experience

Dependent on experience and education. The client is a progressive company offering employees a competitive salary, comprehensive benefits package

Registration

Please ensure you register your details with Outpost Recruitment when submitting your job application. We cannot review your application until we have gathered information on your work experience, skills and attributes.

Matching Canada's leading construction and engineering firms with the best local and international talent.#J-18808-Ljbfrr
