Infosys Public Services is seeking a SAP Fieldglass Consultant. This position will interface with key stakeholders and apply technical proficiency across different stages of the Software Development Life Cycle including Requirements Elicitation, Application Architecture definition and Design; play an important role in creating the high-level design artifacts; deliver high quality code deliverables for a module, lead validation for all types of testing and support activities related to implementation, transition and warranty. This is an opportunity to be part of a learning culture, where teamwork and collaboration are encouraged, excellence is rewarded, and diversity is respected and valued.Required Qualifications:

Candidate must be located within commuting distance in Ottawa, ON or be willing to relocate to the area.

Bachelor's degree in engineering or foreign equivalent. Will also consider three years of progressive experience in the specialty in lieu of every year of education.

At least 4 years of Information Technology experience.

Candidates authorized to work for any employer in Canada without employer-based visa sponsorship are welcome to apply. Infosys is unable to provide immigration sponsorship for this role at this time.

Job description

Infosys Public Services is seeking a SAP Fieldglass Consultant. This position will interface with key stakeholders and apply technical proficiency across different stages of the Software Development Life Cycle including Requirements Elicitation, Application Architecture definition and Design; play an important role in creating the high-level design artifacts; deliver high quality code deliverables for a module, lead validation for all types of testing and support activities related to implementation, transition and warranty. This is an opportunity to be part of a learning culture, where teamwork and collaboration are encouraged, excellence is rewarded, and diversity is respected and valued.Required Qualifications:

Candidate must be located within commuting distance in Ottawa, ON or be willing to relocate to the area.

Bachelor's degree in engineering or foreign equivalent. Will also consider three years of progressive experience in the specialty in lieu of every year of education.
