Company: Turner & Townsend Group

Location: Ahuntsic North

Category: management

Turner & Townsend is a global consultancy, applying technical excellence in their work across the real estate, infrastructure and natural resources sectors.

We have grown to become a world-leading professional services company. With 128 offices in 50 countries, we draw on extensive global and industry experience to manage risk while maximizing value and performance during the construction and operation of our clients' assets.

Through the commitment, capability and care our team brings, we build trust between clients, suppliers, governments and society. Delivering better outcomes that have a positive impact on the world around us.

We work smarter to face the challenges of the future; bringing the clarity that helps teams realize their full potential across the real estate, infrastructure and natural resources sectors.

It's how we've made the difference for more than 75 years. Transforming performance for a green, inclusive and productive world.

Job Description Supporting a major project in Ottawa

Leading a team of like-minded individuals to drive the best value and opportunities for the client whether that be through design or construction.

Working with our reporting and scheduling teams to develop clear and concise monthly reports that showcase all aspects of the project.

Driving packages of work through from inception of package through to completion including working with our estimating team, seeing it through procurement and then monitoring the

works on site.

Interfacing with the client and other consultants, at all project stages.

Providing educated guidance and insight on all aspects of the project to drive improvement and efficiencies.

Assisting in research related to construction market conditions throughout Canada, including analysis of official published data.

Quality Control – Ensuring compliance with quality standards and participation in ISO audits.

Assisting on feasibility studies and costings as well as reviewing and writing procurement reports.

Assessing and validating design as well as post contract cost changes, where applicable referring major changes to line manager.

Inputting into value engineering and life cycle costing.

Assisting the Commission Manager ensuring commissions are managed to the right quality standards and are completed efficiently and on time.

Assisting the Commission Manager to ensure service delivery on commissions is in line with the conditions of appointment.

Assisting our Associate Directors / Directors in developing new business opportunities with existing and new Turner & Townsend clients.

Knowledge management – Ensuring that key information and learning generated is inputted into internal databases and shared.

Qualifications Eligible to work in Canada with Reliability Clearance with the Government of Canada

+10 years of relevant experience including working on at least two major projects or programs

A recognized post-secondary education certificate, diploma or degree University Degree in Quantity Surveying or related field
